PRIYANSH BURMAN

Full Stack Developer

📞 +91-7849845035 ✉ burman.priyansh098@gmail.com 🔗 linkedin.com/in/priyanshburman

Summary

Full Stack Developer proficient in MERN stack, Next.js, and PHP Laravel, with experience in authentication, RESTful APIs, payment gateway integration, and real-time web applications.

Skills

Languages: C/C++, JavaScript, Typescript, Python, Java, PHP
Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Tailwind CSS, Bootstrap
Backend: Node.js, Express.js, PHP, Laravel, RESTful APIs, JWT Authentication, WebSockets, SMTP
Database: MongoDB, MySQL
Tools & Platforms: Git, GitHub, Firebase, Postman, Vercel

Experience

Full Stack Developer   **Jan 2025 – Present**
Rankers Mind (Full-Time)   *Tech Stack: Node.js, Express.js, PHP, Next.js, React.js, MySQL*

- Contributed to 5+ full-stack web applications using PHP Laravel and RESTful APIs, **improving system efficiency and reducing development time by 20%**.
- Applied authentication & role-based access control, **reducing login-related issues by 25%**.
- Optimized MySQL queries and database structure to improve performance.
- Collaborated with Agile teams, using Git/GitHub for version control and efficient deployment.

Full Stack Developer   **Feb 2024 – Dec 2024**
Arka Softwares (Full-Time)   *Tech Stack: Node.js, Express.js, TypeScript, Next.js, React.js, MongoDB*

- Built and maintained 3+ MERN stack applications with **Next.js** frontend and **Node.js/Express** backend, enhancing user experience.
- Integrated **JWT authentication, WebSockets, and third-party APIs**, improving system reliability by 25%.
- Managed **MongoDB**, Mongoose, and Prisma ORM for efficient data handling, reducing query time by 20%.
- Deployed applications on Vercel, Firebase, and AWS EC2, enhancing uptime and scalability by 30%.

Projects

Open Source Contribution – DevNext (GSSOC 2025) | *MERN Stack*   **Sept 2025**

- Fixed 15+ bugs and implemented 3 AI-powered features in an open-source MERN project.
- Learned and applied Git workflows (clone, push, pull requests, merge branches) in a collaborative environment.
- Improved application efficiency by 20% through backend optimization and database indexing.

OneCart E-commerce Platform | *MERN Stack*   **May 2025 – June 2025**

- Created a full-stack e-commerce website using MERN stack with JWT authentication and Razorpay payment gateway.
- **Executed shopping cart, order history, and admin dashboard**, enhancing user management and operational efficiency.
- **Integrated AI voice commands to navigate products**, reducing user interaction time by 30%.
- Deployed on Render and Firebase, ensuring 99% uptime and optimized performance.

AI Virtual Assistant | *MERN Stack*   **June 2025**

- Built an AI-powered virtual assistant to manage user navigation, orders, and product recommendations.
- Enhanced user engagement by 25% through smart suggestions and real-time interaction.
- Integrated voice recognition and AI-based responses for seamless UX.
- Deployed on Render, ensuring stable performance and accessibility.

Awards & Certifications

- **Meta Full Stack Developer Professional Certificate – Meta (2025):** Completed full-stack projects using MERN, PHP Laravel, and Next.js with TypeScript, implementing authentication, payment gateway integration, and responsive design.

- **Oracle OCI AI Foundations Certificate – Oracle (2025):** Gained hands-on experience with AI services, cloud deployment, and building AI-powered solutions on OCI.

- **GSSoC Contributor – DevNext (MERN Stack) (2025):** Fixed bugs, added AI-powered features, and contributed to full-stack project development using Git/GitHub workflows.

Education

BCA - Bachelor of Computer Applications   **CGPA: 8.2 / 10**

Manipal University Jaipur, Rajasthan
